

FOLEY, INC. GET CONNECTED OFFER
IT PAYS TO CONNECT

FREE TELEMATICS ON ELIGIBLE MACHINES

Foley, Inc. is offering free installation of telematics on your equipment. Foley can install this during a repair or we will provide you with the tools to complete the installation yourself.*

When you connect your fleet with Cat® Product Link™, you choose how much and how often to access your data. Just getting started with telematics?

Cat Daily gives you a free snapshot of critical information, including location and fault codes, once a day. Want more? Upgrade to our **VisionLink®** subscriptions for hourly reporting and use the data to better manage asset utilization and maintenance.

Let Foley, Inc. build a custom quote for your fleet. We can create flexible plans that fit your needs and budget.

** Travel time & mileage not included on dealer field installations. Device selection based on machine compatibility. For information on device capability, contact the EM Services department. Upgrading your subscription to VisionLink® requires additional fee.*

OFFER VALID THROUGH 12/31/18. **GET CONNECTED TODAY!**

Bensalem Territory Branches: 215-244-3880
