

CAT® REMAN CAMSHAFT KITS

EVERYTHING YOU NEED FOR AN AFFORDABLE, QUALITY REPAIR

When it's time to replace the camshaft in your Cat® on-highway truck engine, a Cat Reman Camshaft Kit is a great way to save time and money.

To avoid premature wear, Caterpillar recommends always replacing the camshaft and rocker arms as a set. These easy-to-order, easy-to-install kits contain all you need for a quality repair at a competitive price, including fully assembled rocker arms ready for installation. Plus, by replacing the camshaft and rocker arms together, you qualify for extended coverage options like Overhaul Protection for Trucks and Cat Component Plus — affordable ways to protect your investment.

KIT PART NUMBER	MODELS	SERIAL NUMBER PREFIX	HP	KIT CONTENTS
